Patchway Community School GCSE Results 2026

Year 11 students at Patchway Community School have secured the strongest GCSE outcomes the school has seen in a number of years, marking a significant milestone in their academic journey. Attainment across the school has risen again this year, with particularly notable gains in English and Combined Science. These achievements reflect sustained effort, high expectations, and the excellent support provided by staff.

Our students showed exceptional dedication throughout their courses, and their results are a well-earned reflection of that commitment.

We are incredibly proud of every student in Year 11 and warmly congratulate them on their success.

Several students achieved outstanding personal results, including:

- Pearl H – 4 grade 9s, 2 grade 8s and 2 grade 7s
- Matilda S – 2 grade 9s, 2 grade 8s and 5 grade 7s
- Al-Hameen A – 3 grade 8s and 5 grade 7s

Senior Headteacher Steve Kneller said "I am delighted that our amazing students have achieved such an excellent set of results. Their hard work, dedication and resilience have been rewarded and the results they have gained will enable them to progress on to further education, employment or training. The overall results this year indicate further improvements building on last year's results and is an indication of the progress the school continues to make. This is down to great teaching and support of all young people, strong leadership across the school and excellent collaboration with our families and wider partners and I am truly grateful for everyone's hard work and professionalism. While we are proud of this success, we are not complacent; we remain firmly committed to further strengthening our practice and improving the life chances of all our young people."

Claire Moloney-Banks, CEO of The Olympus Academy Trust, said:

"These results tell a story of commitment and collective endeavour. Every student receiving their results today has their own journey, their own achievements and their own ambitions for what comes next.

"At Olympus, we want every young person to leave our schools with the confidence to shape their future and contribute positively to their communities. I am proud of what this cohort has achieved and grateful to the staff, families and carers who have supported them along the way. We look forward to seeing the many different paths these young people choose to follow and wish them every success in the years ahead."
