Dear Parents/Carers,

RE: Ofsted

As you will know a team of Ofsted inspectors were onsite on Tuesday and Wednesday undertaking a routine section 5 graded inspection.

Whilst I am unable to share the gradings from the inspection I can confirm that the outcomes were in line with the school's own self-evaluation.

The inspection team saw many strengths during their 2-day visit which, once the report is written and has been quality assured by Senior Inspectors, I will be able to share with you, but all the inspectors commented on the positive warm relationships that permeate Patchway Community School and how the overwhelming majority of parents have a positive view of the school. The report should be available by the end of January.

Can I take this opportunity to remind parents that if you do have any feedback to share with the school, please do contact me. We always want to hear positive or constructive feedback; this is how the school will continue to improve moving forward.

Yours sincerely,

Mr Stephen Kneller
Headteacher
