

Careers Programme 2021-2022

The aim of the careers programme is to ensure that all students develop the skills and knowledge to make informed choices about their future. We do this through integrating careers education and learning across the curriculum as a whole, through links with external providers to support engagement with further and higher education institutions, apprenticeship providers and workplaces. As students progress through the school, there is an increased focus on more targeted discussions and encounters, as well as individual support in order to ensure positive progression for all our students.

	Higher education and Further Education encounters
	Careers and skills education across the curriculum
	Employer encounters
	Information, advice and guidance opportunities
