

CAREERS@PATCHWAY TERM 6 UPDATE

Y10 UWE Campus tour

50 of our Y10 students came to visit the University of the West of England this term. Many had never been to a University before and it was a great chance to look around, meet some current students, find out more about the courses on offer and learn about all the fun you can have in new clubs and societies. Many students were very inspired by the day, which really challenged their understanding of what going to Uni might be like.

Future Ready visit to AtkinsRéalis

One of the businesses that has welcomed us on the Future Ready programme is AtkinsRéalis. It was fantastic to be able to walk over to their offices, showing students that opportunities really are on their doorstep. Izzy led an engaging and interactive morning where we took part in teamwork activities such as bridge building, tested our knowledge of the carbon cost of everyday activities and had a tour of the office. Students really enjoyed the experience and commented that they had walked past the building many times but never imagined they would go in it!

Term 6 pop ups

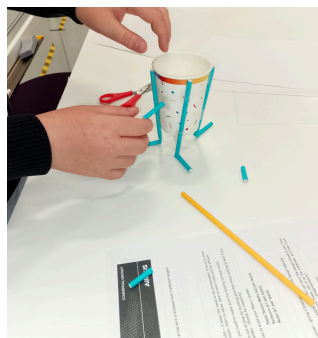

Every year in Term 6 we invite our local employers and providers to a lunchtime pop ups. These are like a mini careers fair with just 3 or 4 providers at a time. This gives students from all years the chance to start getting informed about the opportunities available to them locally in a small, casual setting.

CAREERS@PATCHWAY TERM 6 UPDATE

Luke Wheaton Legacy Trust Airbus visit

Luke Wheaton was a student at Bradley Stoke school. He had just started an apprenticeship with Wessex Water when he sadly lost his life aged just 16 in the tragic Avonmouth accident in 2020. The Trust has been set up in his name to offer opportunities to local young people. Along with students from Abbeywood and Bradley Stoke schools, 12 of our students in Y7&8 visited Airbus for a day where they took part in a hands on-project designing and testing a moon lander, had a tour of the site, heard from different Airbus employees about their roles and considered their own future plans

For more information on the Trust, [visit https://www.lukeslegacytrust.org/](https://www.lukeslegacytrust.org/)
To read about the day in more detail, see this [press release](#) from Airbus
